DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 07/28/04 have been fully considered but they are not persuasive. The Applicant's statement that the Smith reference is lacking reel-mounting members to be secured in fixed position along the elongated mounting member is respectfully disagreed with. As can clearly be seen in the Figures, the reel-mounting members are secured in fixed positions along the elongated mounting member. If this were not the case, the reel-mounting members would not be supported at the fixed locations and the invention would not operate in the manner in which it was intended. With regards to the statement that the Smith reference requires both hands to be utilized, while this is not claimed as a limitation of the instant application, it is noted that Smith clearly points out in the disclosure that the removal of the reels requires the use of only one hand. The rejection stands.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 2 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith, GB 2,221,076 A.

Smith discloses an elongated support member (P), a plurality of hollow reel mounting members (R) and means fixing the reel-mounting members at spaced locations (D). It is noted

that the recitation that an element is “adapted to” perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
